

The Weather

Lawrence

I won't talk about the weather
Not with you, we're not together
'Cause even when the sky is grey, I'm feeling blue
And though the winds are always changing
And the clouds are rearranging
A part of me will always be in love with you

There's a fire in LA
Since you moved there back in May
I wonder, should I call to see if you're alright?
Yeah, you're a million miles away
But I still think of you each day
And hope the weather doesn't keep you cold tonight

So, I won't talk about the weather
No, I won't talk about the weather

I won't talk about the weather
Not with you, we're not together
'Cause even when the sky is grey, I'm feeling blue
And though the winds are always changing
And the clouds are rearranging
A part of me will always be in love with you

So, I won't talk about the weather

No, I won't talk about the weather
I won't talk about the weather
Not with you, we're not together
And it's hard to say if we will ever be
But I'll admit my greatest fear is that
The air will never clear
So I just wish we could talk like you and me

No, I won't talk about the weather
Not with you, we're not together
But I wonder if we're ever really through
'Cause if we're talking about whether
You and I should be together
Oh, I know I'll always be in love with you
Oh yes, I know I'll always be in love with you
